

FORTE 2025

The complete new-generation aesthetic biostimulation range

7 SOLUTIONS EXPERTES POUR DES RÉSULTATS VISIBLES ET NATURELS

EYELINES FORTE

Réduit les rides d'expression et les pattes d'oie. Lisse et raffermi la peau du contour des yeux.

EYE BAG FORTE

Réduit les poches et les gonflements. Améliore la microcirculation et décongestionne.

BRIGHT EYES FORTE

Estompe les cernes pigmentaires et vasculaires. Illumine le regard et unifie le teint.

GIA

Stimule la production de collagène. Restaure la fermeté, l'élasticité et l'hydratation.

GIA FORTE

Action biostimulante intense. Améliore la densité cutanée en profondeur.

LipGLAM X6 FORTE

Repulpe, hydrate et redéfinit les lèvres. Améliore leur volume et leur qualité.

RICH HAIR FORTE

Stimule la croissance des cheveux. Renforce, revitalise et freine la chute.

PEPTIDES BIOMIMÉTIQUES

ACIDE HYALURONIQUE NON RÉTICULÉ

COLLAGÈNE MULTI-TYPES

VITAMINES & ANTIOXYDANTS

RÉSULTATS NATURELS & PROGRESSIFS

SÉCURITÉ & TOLÉRANCE OPTIMALES

Premium overview of the FORTE 2025 product range

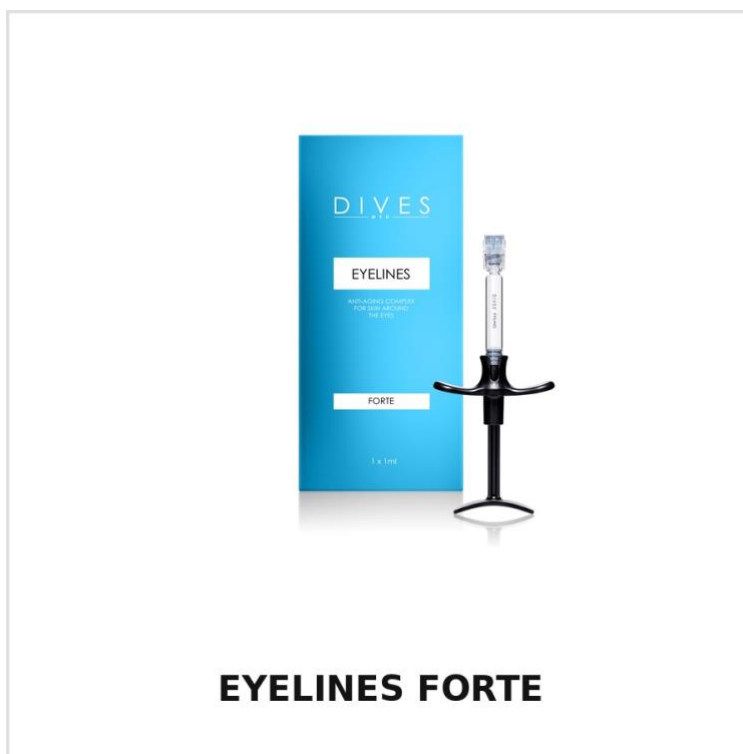

The FORTE 2025 range reflects a new approach to aesthetic medicine: improving tissue quality, stimulating biological regeneration and achieving visible results without an artificial look. Each formula targets a precise indication: eye contour ageing, puffiness, dark circles, skin restructuring, lips or scalp revitalisation. The range combines biomimetic peptides, non-cross-linked hyaluronic acid, collagen complexes, polypeptides, vitamins, antioxidants and amino acids.

Range overview

Product	Main indication	Positioning
EYELINES FORTE	Wrinkles and laxity around the eyes	Botox-like peptides and biostimulation
EYE BAG FORTE	Puffiness and swelling	Drainage, microcirculation and Dunaliella Salina
BRIGHT EYES FORTE	Dark circles and fatigue	Radiance, peptides and Zerumbone
GIA	Skin quality and prevention	HA + 9 forms of collagen
GIA FORTE	Intensive restructuring	Highly concentrated HA and collagen
LipGLAM X6 FORTE	Lips, hydration and colour	Biostimulation without obvious filler effect
RICH HAIR FORTE	Hair loss	Peptides, B vitamins and scalp revitalisation

EYELINES FORTE

Highly concentrated peptide-amino acid stimulator for anti-ageing therapy and wrinkle reduction around the eyes

Who is it for?: Ideal for patients with peri-orbital wrinkles, crow's feet, loss of density, fine laxity and the need for eye-contour anti-ageing prevention.

Key active ingredients: 6 key biomimetic peptides: Pentapeptide-18, Acetyl Hexapeptide-8, Acetyl Tetrapeptide-5, Palmitoyl Pentapeptide-4, Palmitoyl Tripeptide-1 and Palmitoyl Tripeptide-5. Non-cross-linked hyaluronic acid 8 mg/ml, Saccharomyces and Glycine Max polypeptides, amino acids, vitamins C and E, glutathione, bioflavonoids and B vitamins.

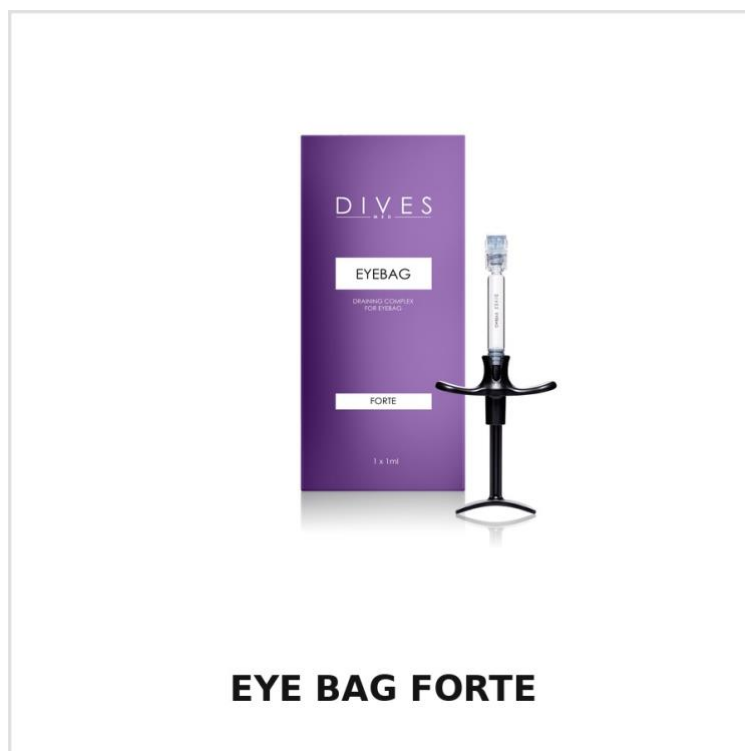

Protocol: 1 ml sterile Luer-Lock syringe. Areas: lower eyelid, upper eyelid and temple area. Recommended protocol: 2 to 4 sessions spaced 14 to 21 days apart. Do not exceed 1 ml per treatment.

Expected benefits

- Reduction of expression lines and crow's feet around the eyes
- Improvement in firmness, elasticity and density of eyelid skin
- Brightening and evening of the periorbital skin tone
- Moisturising and intensive regeneration of sensitive skin
- Antioxidant protection and anti-ageing prevention

EYE BAG FORTE

Innovative stimulator reducing swelling and puffiness of the eyelid skin

Who is it for?: Particularly suitable for patients with chronic puffiness, lymphatic stagnation, swollen-looking eyes and persistent signs of fatigue.

Key active ingredients: 3 biomimetic peptides: Acetyl Tetrapeptide-5, Dipeptide-2 and Palmitoyl Tripeptide-5. Non-cross-linked hyaluronic acid 3 mg/ml, Dunaliella Salina microalgae extract, vitamin B3, caffeine and panthenol.

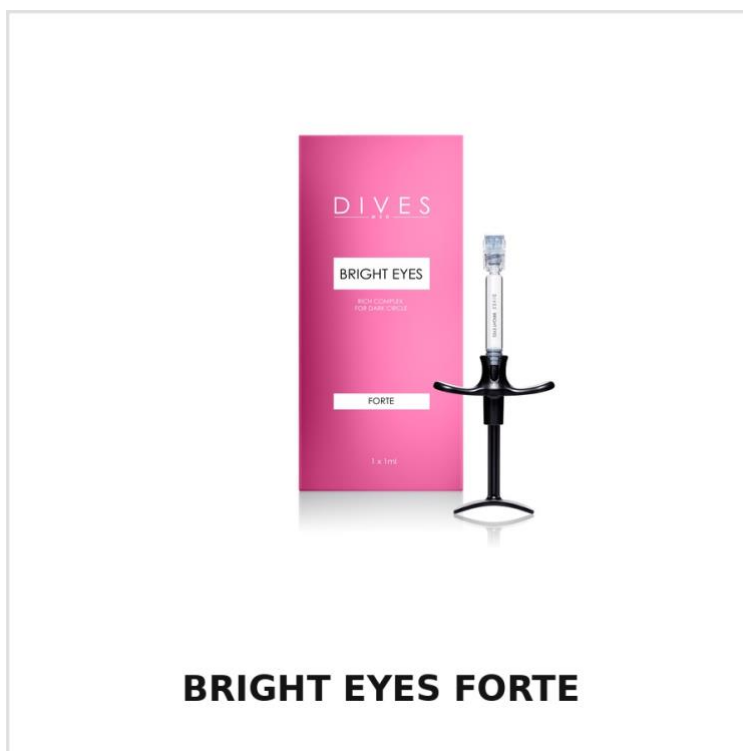

Protocol: 1 ml calibrated sterile Luer-Lock syringe. Areas: lower eyelid, upper eyelid and temple area. Recommended protocol: 2 to 4 sessions spaced 14 to 21 days apart. Do not exceed 1 ml per treatment.

Expected benefits

- Visible reduction of swelling, under-eye bags and lymphatic congestion
- Support of lymphatic drainage and microcirculation
- Brightening of tired-looking eyes
- Intensive moisturising and smoothing of fine lines
- Strengthening of the skin barrier and oxidative-stress protection

BRIGHT EYES FORTE

Advanced peptide-polypeptide stimulator for dark circles and signs of fatigue around the eyes

Who is it for?: Designed for vascular or pigmentary dark circles, tired-looking eyes and mature skin showing loss of elasticity or density.

Key active ingredients: 4 key biomimetic peptides: Acetyl Tetrapeptide-5, Palmitoyl Pentapeptide-4, Palmitoyl Tripeptide-1 and Palmitoyl Tripeptide-5. Non-cross-linked hyaluronic acid 5 mg/ml, Saccharomyces and Glycine Max polypeptides, Zerumbone, niacinamide and caffeine.

Protocol: 1 ml sterile Luer-Lock syringe. Areas: lower eyelid, upper eyelid and temple area. Recommended protocol: 2 to 4 sessions spaced 14 to 21 days apart. Do not exceed 1 ml per treatment.

Expected benefits

- Visible reduction of dark circles and signs of fatigue
- Reduction of puffiness and under-eye bags
- Brightening and improvement of delicate eyelid skin tone
- Moisturising, smoothing of fine lines and improved elasticity
- Antioxidant action and protection against premature ageing

GIA

Innovative tissue modulator with hyaluronic acid and nine forms of collagen

Who is it for?: A lighter formula for younger skin or prevention protocols, especially when the goal is natural refreshment and improved tissue quality.

Key active ingredients: Hydrolysed non-cross-linked hyaluronic acid 10 mg/ml and a 5 mg/ml complex of 9 forms of collagen: hydrolysed collagen, native collagen, atelocollagen, collagen amino acids, collagen extract, soluble collagen, soluble collagen polymer, esterified collagen and plant collagen.

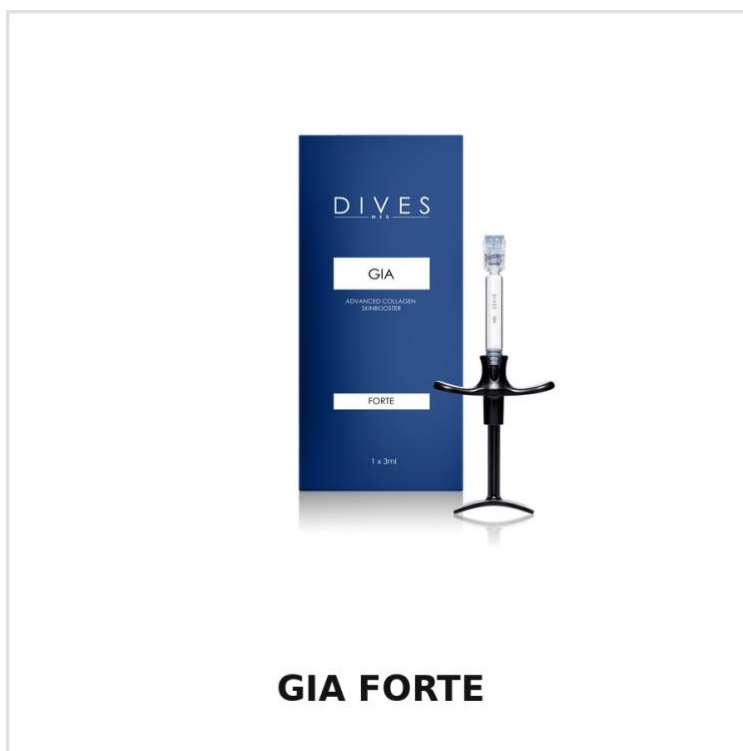

Protocol: 6 ml flip-off ampoule. Areas: face, neck, décolleté, hands, scars, stretch marks and other areas requiring firming. Recommended protocol: 3 to 4 sessions spaced 14 to 21 days apart. Do not exceed 3 ml per treatment area.

Expected benefits

- Progressive biostructuring
- Intense hydration and regeneration
- Improvement in tissue tone, density and elasticity
- Prevention of early firmness loss
- Natural freshening without artificial exaggeration

GIA FORTE

Intensive tissue stimulator for restructuring, firming and natural lifting

Who is it for?: Indicated for mature, lax or density-depleted skin when the objective is deeper restructuring and a more visible firming effect.

Key active ingredients: Hydrolysed non-cross-linked hyaluronic acid 25 mg/ml and a 10 mg/ml complex of 9 forms of collagen, designed for a more concentrated action on the extracellular matrix and skin density.

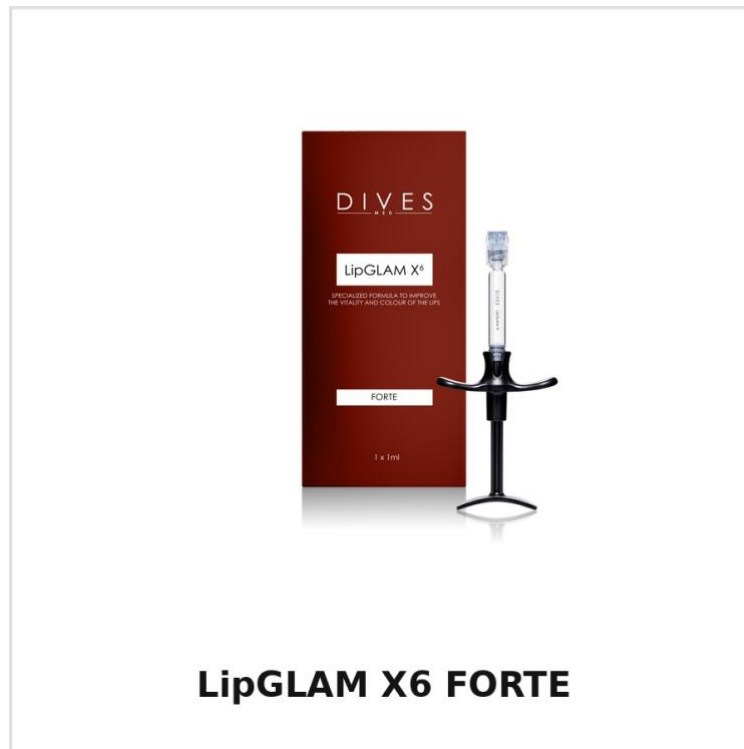

Protocol: 3 ml calibrated sterile Luer-Lock syringe. Areas: face, neck, décolleté, hands, scars, stretch marks and other areas requiring firming. Recommended protocol: 2 to 3 sessions spaced 21 to 28 days apart. Do not exceed 3 ml per treatment.

Expected benefits

- Intensive bioreconstruction and modulation of collagen synthesis
- Strong moisturising and regenerative effect
- Improvement in volume, tone and elasticity
- Visible lifting and rejuvenating effect without artificial exaggeration
- Reduction of wrinkles and evening of skin tone

LipGLAM X6 FORTE

Highly concentrated stimulator to improve vitality and colour of the lip vermilion

Who is it for?: For dehydrated, dull or less firm lips, fine perioral lines and patients seeking a natural-looking lip-quality improvement rather than obvious volume.

Key active ingredients: Palmitoyl Tripeptide-1, sesame seed oil, stable vitamin C (3-O-Ethyl Ascorbic Acid), troxerutin, sodium hyaluronate 15 mg/ml, glycerine and tocopherol.

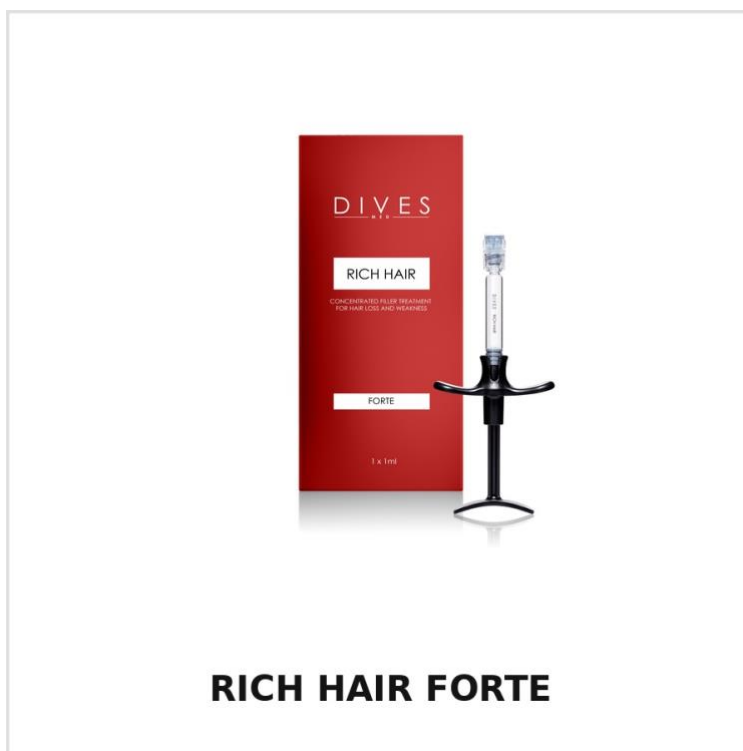

Protocol: 1 ml sterile Luer-Lock syringe. Areas: lip vermilion and mouth area. Recommended protocol: 2 to 3 sessions spaced 21 to 28 days apart. Do not exceed 1 ml per treatment.

Expected benefits

- Revitalisation and improvement of the lip vermilion
- Increased intensity and more even lip colour
- Moisturising and smoothing of dry lips
- Subtle plumping effect without a filler-like result
- Antioxidant protection and anti-ageing prevention

RICH HAIR FORTE

Peptide tissue stimulator for the treatment of excessive hair loss

Who is it for?: For excessive hair shedding, thinning hair, weakened scalp condition, brittle hair and revitalising protocols for both women and men.

Key active ingredients: Non-cross-linked hyaluronic acid 10 mg/ml, biomimetic peptides including Biotinyl Tripeptide-1, Acetyl Tetrapeptide-5, Palmitoyl Tripeptide-1 and Palmitoyl Tripeptide-5, Saccharomyces and Glycine Max polypeptides, amino acids and B vitamins.

Protocol: 1 ml sterile Luer-Lock syringe. Area: hairy scalp. Recommended protocol: 4 sessions spaced 10 to 14 days apart. Do not exceed 1 ml per treatment.

Expected benefits

- Support in excessive hair-loss protocols
- Stimulation of the hair follicle environment
- Improvement of scalp microcirculation
- Strengthening of fine, brittle or weakened hair
- Anti-ageing prevention for the scalp and hair follicles

Conclusion

FORTE 2025 brings together a coherent and complete portfolio of biostimulation solutions. Each product provides a targeted response to a specific aesthetic concern, following one common principle: restore, stimulate, hydrate and naturally improve tissue quality. This approach is particularly relevant for practitioners who want to offer progressive, elegant and patient-centred protocols aligned with the expectations of modern aesthetic medicine.
